

## Rimage Media Kits

What's the single most important thing you can do to get the most out of your Rimage disc publishing system or printer? Use Rimage Media Kits. Not all discs are manufactured to the tolerances required for robotic systems and the high-volume, on-demand performance you rely on from your Rimage system. You can count on Rimage Media Kits for reliable, uninterrupted performance.

Rimage Media kits provide matched quantities of high-quality printing supplies and fully tested media – everything you need to produce the best-looking, longest-lasting discs.

### Quality You Can Depend On

Rimage Media Kits use only the best-quality ribbons, ink and media for the most dependable results from your Rimage system.

### Convenience Means Efficiency

Media Kits provide perfectly matched discs and printing ribbons for consistent publishing performance. You have what you need, when you need it to produce high-quality discs on demand.

### The Right Discs Mean Happier Customers

Rimage-approved media is optimized for use with Rimage systems. It's what they need to do their very best. That means fast, dependable production of stunning discs – every time. Just what your customers expect.

### Guaranteed Performance

Rimage discs are guaranteed for data life and print quality.

### A Wide Range of Sizes to Meet Your Needs

Sized for printing from 500 to 10,000 discs, Rimage Media Kits provide perfectly matched discs and printing ribbon quantities for a wide range of publishing requirements

## Why Use Rimage Media Kits?

### Discs Look Better and Last Longer

Rimage's pioneering Everest thermal retransfer printer technology enables users to permanently print high-resolution images directly to the surface of discs with extraordinary print quality and durability. Media Kit discs are specifically designed for Everest thermal print coatings.

Based on longevity testing, Rimage guarantees that each CD in a Media Kit will retain its data for 100 years, and each DVD for 50 years.\* And Rimage guarantees CDs, DVDs and Blu-Ray discs to both record and print to the user's satisfaction.\*

### Your Rimage System Performs Better

Rimage printable media is matched precisely to system specifications for faster write speeds and error-free operation. Fewer rejected discs mean fewer headaches and less risk of a halt to your time-critical production environment. Rimage software, hardware and Media Kits are designed to work together for consistent print quality and guaranteed data integrity.

### Your Business Runs Smoother

Rimage Media Kits maximize system uptime and throughput by reducing or eliminating disruptive printing and recording failures. They simplify your procurement and stocking process, ensuring your systems have the supplies they need. And Media Kits save you money compared to buying ribbons and media separately.

The best disc publishing operations combine Rimage Media Kits with a Rimage maintenance agreement. For customers using Rimage ribbons in their systems, Rimage maintenance agreements also include one free print head per system per year.

\*Full warranty can be viewed at [rimage.com](http://rimage.com)

### Even Inkjet is Better with Rimage Media Kits

No more pooling, smudging or oversaturation. Now you can consistently print detailed text and images perfectly - every time. Rimage inkjet cartridges and discs are designed to work together for faster drying times, reduced dot gain and beautiful color resolution.

### Now Available at the Rimage WebShop

Now you have a choice. Purchase your Rimage Media Kits from your Rimage Authorized Reseller or from Rimage directly at [rimage.com/shop](http://rimage.com/shop). The Rimage WebShop is a convenient option for the purchase of Rimage-approved disc publishing supplies.
