

RIMAGE PRISM™ RIBBONS

Get High Quality at a Low Cost

Rimage offers monochrome thermal ribbons tailored to Prism printing. Enjoy high quality monochrome prints of vector artwork with a solid black thermal ribbon. You'll benefit from the lowest cost-per-print for on-demand CD, DVD and Blu-ray Disc™ publishing plus clear, crisp text and images that last.

Prism Ribbon Features

- Optimized for use with Prism Printers
- Strong, vibrant printing
- Low cost-per-print compared to competitive brands
- Water-proof and scratch resistant images and text
- Zero drying time
- Proven to offer superior print performance as well as lasting durability in competitive assessment testing
- Fast, dependable production of discs—every time

Authentic Rimage monochrome ribbons create bold images and durable, professional discs for all of your data publishing, distribution and storage needs.

Get More from Every Ribbon

The Prism printer has a ribbon saving feature that can greatly reduce ribbon costs. Printing on the entire disc uses about 4.5 inches of ribbon. Printing on half the disc uses less than 2.5 inches of ribbon – meaning the less you print, the more discs you get out of each ribbon.

- 1.2" of printing = 8,000 discs
- 2.5" of printing = 3,500 discs
- Full disc printing = 2,100 discs
