# **Unrivaled Performance, Versatility and Quality**

Rimage Producer IV disc publishing systems are the industry standard for anyone producing professional CD, DVD and Blu-ray Discs™. With industrial grade robotics, direct-to-disc printing and professional recording technologies, the Producer IV Series meets the world's most challenging disc production demands.

# Benefits

### Powerful printing

Producer IV systems have the world's best full-color and thermal monochrome disc printers, providing top of the line printing and industrial-grade production in one scalable package.

## Quick turnaround

Designed for 24/7, high-volume and unattended production, Producer IV systems publish hundreds of customizable discs per day, so you can deliver customer-tailored discs faster.

### Superior performance

The four-bin carousel and 100-disc external output bin comes standard with the Rimage system, enabling four media types to be available concurrently. The reliable Rimage robotics are designed to output discs continuously for years.
